Permeable Paver FAQs

Do I need a contractor?

We highly recommend hiring a landscape professional experienced with this type of installation.

Can I install permeable pavers with the typical gravel and sand base?

Yes and no. Yes you can do that, however the system is no longer considered permeable. The gravel bases and joint materials are required to meet required water flow rates.

Do I need a drain?

Drains are typically required. Consult your landscape professional to help you with a design for your particular project.

Do your permeable pavers meet county requirements?

The pavers with this icon meet water flow rates for permeable pavers as long as they are installed correctly.

There is a \$35 refundable pallet deposit on each pallet. Be sure to have your receipt!

PORCELAIN PAVERS

Why Choose Porcelain Pavers?

- ◆ Skid, fade and frost resistant
- ◆ Fade resistant colors
- ◆ Easy installation, no grout or adhesive needed
- ◆ Spills, salts and other materials will not seep into pores
- ◆ Easily cleanable with household cleaners
- ◆ Durable—can handle loads up to 2,000 pounds
- ◆ Can be laid on grass, dirt, sand, as well as on roofs and terraces
